## Backlit Film

### Product Description

cCreativ Backlit Film features a tough, opaque polyester substrate designed for most light box applications. The base material has natural diffusion properties resulting in high impact backlit prints. This product produces vibrant colors with superb light diffusion quality and will withstand heat from prolonged backlit exposure. Excellent for indoor or outdoor light box signage, backlit tradeshow displays and other light box applications.

### Printer Ink Compatibility

### Physical Properties

<b>Thickness</b>	7.5 mil   8.5 mil	<b>Coating</b>	1-sided
<b>Finish</b>	Matte   Gloss	<b>Recommended</b>	
<b>Product type</b>	Backlit Film	<b>Environment</b>	Indoor/outdoor
<b>Shelf Life</b>	6 months		

### Storage & Handling Conditions

Material should be handled with white fabric gloves to prevent finger markings. After printing, unused material should be stored upright or suspended in its original packaging. Should be stored at 70° F, 50% relative humidity and out of direct sunlight in its original packaging.

### Installing

This product can be grommeted for short-term indoor banner applications. Metal grommets should be inserted to penetrate 2-4 layers of materials for increased strength and durability. It is recommended that when trimming this material to allow about 0.125-0.25" of white/unprinted border. It is not recommended to "bleed trim" this material.

### Advantages

- Vivid under daylight: with or without lighting on the back
- Can be grommeted or sewed for rotating light box application
- Tough tear-resistant base

### Primary Applications
